### **Dispatch Alerts for People with Disabilities**

If you have some type of physical/medical disability that requires special attention or you need assistance during evacuation in case of an emergency, all you need to do is call the North Maine Fire Protection District at 847-297-5020 and request a form.

Simply complete the form and return to the NMFPD. We are glad to assist if you need help filling out the form. Once the form is complete, it is forwarded to our Dispatch center, which enters your information into their Flag File. When a 9-1-1 call comes in from your phone number and address, your Flag comes up on their screen. The dedicated professional dispatchers relay your critical needs to our first responders.
